

CV400HFE Horizontal Waste Compactor

CV400HFE Horizontal Waste Compactor

The CV400HFE Horizontal Baler is suitable for a medium throughput of material, up to 1 tonne per hour. It is ideally suited for an industrial setting producing a high quantity of small bulk material.

With the press plate extending the whole way to the door, the CV400HFE will produce a very dense mill sized bale. The bale can be fully discharged from the chamber after tying, making it easy to switch between materials.

Benefits

- Allows material to be easily cut after feeding
- Operator can continuously feed machine, saving on down time
- Operator is informed when the bale is ready to be tied
- Semi automatic operation
- Suitable for bulk feeding of small material, eg air blown
- Ensures long life of machine
- Allows machine to be installed indoors or outdoors
- Ensures high safety standards
- Bale plastic and cardboard in the one machine
- Ideal for smaller areas

Features

- IP55 rating
- CE Marked
- Compact size
- Robust construction
- 1.2m wide hopper
- Magic eye start-up
- Automatic cut out when bale is full
- Shear blade on top of press plate

Optional Extras

- Hydraulic door ram
- Interlocked access door for hopper
- Aggressive ram head
- Retention claws
- Satellite control panel
